

DECT business telephone

Aastra 630d

Aastra 630d is the new ruggedized DECT business phone. It is dust and jet water protected and may be used outside or in rough industrial environments.

The device satisfies the industrial standard IP 65. It is very easy to clean and complies with high hygiene requirements, making it ideally suited for the healthcare sector, too. With its integrated sensor alarm the phone is ideal for security professions or the prison and detention centres. An additional emergency call key makes the 630d the ideal companion not just for security-related professions, but also for hospitals and care facilities.

Service facilities like firmware download over air help reducing support costs.¹

The handset is equipped with a Bluetooth® interface for cordless headsets and comes with an option for a higher capacity battery. Furthermore the GAP standard is supported.

Aastra 630d

Highlights of the Aastra 630d

- ✦ TFT-colour display (2", 176 x 220 dots; 65,536 colours)
- ✦ Telephone book with 200 contacts¹, with 7 possible entries each: office, private, mobile and fax number, email address¹; ringing tone and quick dialling assignment¹
- ✦ Ambient noise filter for loud environments
- ✦ 44 polyphone (midi type) and 8 normal ring tones with automatic volume control can be assigned
- ✦ Up to 5 user profiles for e.g. headset or meeting usage can be configured
- ✦ Hands free operation
- ✦ Headset connector (2.5 mm jack) and Bluetooth® headset support
- ✦ 1 programmable Hotkey for numbers or functions
- ✦ 2 programmable navigation keys¹
- ✦ 3 programmable side keys
- ✦ 1 emergency key on top
- ✦ Intelligent battery management
- ✦ Mini USB PC interface
- ✦ 3 colour multi-purpose LED, which can be set for visualisation of functions
- ✦ Optional microSD-Card 2GB¹: The card saves the subscription data of the portable part of your communications system, the most important local device data, and your private phone book. This guarantees that if a handset is defective the key data can be quickly transferred to a replacement handset just by moving the card. The new handset can be used immediately without having to subscribe again.

¹ if supported by PABX
